Alumni Association Members Elect Five Councilors To Take Office July 1 For Three Year Term

Ray L. Lillywhite . . . Secretary of Utah Teacher retirement plan.

Heber Bennion Jr. . . . Recently appointed Utah Secretary of State.

Erwin (Scotty) Clement . . . Employed by Vets Administration.

Pictured above are five alumni who will serve on the Alumni Council beginning July 1, 1947 for a three year term. They were selected from a field of 15 candidates and ballots were mailed into the Alumni Association office in Logan.

Ray L. Lillywhite '35 has been executive secretary of the Utah State Teachers' Retirement System since its organization in 1927. He is also on the executive committee of the National Council on Teacher Retirement. He is active in scouting, Intermountain Radio Council, Junior Chamber of Commerce and the American Legion. He makes his home in Salt Lake City.

Heber Bennion Jr. '12 was recently appointed by Gov. Herbert B. Maw as Secretary of State to replace E. E. Monson, deceased. He is acting governor when Maw is out of the State. Upon graduation from Utah State he became principal of Lehi high school and held the position for five years. He then went into the livestock business in Dagget county and still operates his ranch and stock business there. He represented Dagget county in five regular sessions of the state legislature and was speaker of the house in 1939.

Erwin "Scotty" Clement '37 is employed by the Veterans Administration in Twin Falls, Idaho. He is a former Alumni Secretary holding the position from 1937 until 1941 when he entered the army. He was awarded the bronze star and the French croix de guerre for gallantry in ac-

Mrs. Lucile Owen Petty . . . Was dean of women at Weber college.

tion in the European theater.

Mrs. Lucile Owen Petty '26 is a member of the Ogden city board of education from the fifth municipal district, being the first woman elected to that position. She is a former dean of women at Weber college and is the mother of eight children. She is married to Dr. Russell B. Petty, prominent dentist of Ogden.

Vern B. Muir '22 is a former Logan

Vern B. Muir . . . Former Logan city commissioner and grocer.

city commissioner and at the present time is serving on a short-term mission for the LDS church in northern California. He has operated stores and ranches in Utah, Idaho, Nevada, Wyoming and Nebraska.

The nominating committee consisted of **Leonard McDonald '39**, **Parley Kilburn '31**, **Jack Croft '24**, **Allan West '32**, **Gronway Parry '14** and **Mrs. Bernice Gray**, acting secretary.

GRADUATES AND EX-AGGIES

Life memberships at \$25.00 or annual membership of \$2.00 may now be procured by any interested person who has ever attended the USAC. Joint annual dues for husband and wife are also available at \$2.50 per year and joint life memberships at \$35.00. Husbands or wives of graduates or ex-Aggies may also affiliate on an annual or life basis.

It is now possible for all former students who have attended the Utah State Agricultural College for one quarter or more to become full fledged members of the Alumni Association upon payment of the dues as outlined above.

THE COVER

The faculty on Commencement Day, taken by
 Prof. H. Reuben Reynolds.

Outstanding Speakers Coming to USAC For 1947 Commencement

Rt. Rev. Arthur W. Moulton, past bishop of the Episcopal Church of Utah, and now retired, has been chosen speaker for the Class of 1947's graduation exercises June 7. Rev. Moulton is well known in the state and is recognized for his excellent understanding of Utah's history. President Franklin S. Harris announced the selection.

At the same time President Harris announced Dr. Joseph F. Smith, past patriarch of the LDS church, as the baccalaureate speaker. Baccalaureate services on Sunday June 1 and commencement exercises the following Saturday will be held in the field house on the campus. Degrees will be conferred on 385.

Dr. Smith is returning from the University of Hawaii where he has been teaching, and will stop off in Logan to deliver the address on his way to the University of Wisconsin where he will teach speech this summer. For a number of years, he was head of the speech department at the University of Utah and resigned to become patriarch of the LDS church.

The commencement committee consists of Dr. Daryl Chase, Dean E. A. Jacobsen, Dean M. R. Merrill, Dean Carlton Culmsee, Dr. N. W. Christiansen, Dr. Chester Myers, Mr. Ralph J. Richards and Miss Vera Carlson.

Aggie Life Member Student Body President

Desmond Anderson C'48 and a life member of the Alumni Association, was elected student body president for Utah State for the 1947-48 school year at election held in April. Des is a native of Logan and is prominent in school affairs. This spring he was chairman of the Junior Prom.

Desmond Anderson

KNOW YOUR AGGIES

DR. CLAUDE E. ZOBELL

Dr. Claude E. Zobell '27, director of the American Petroleum Institute and assistant director of the Scripps Institution of Oceanography in La Jolla, Calif., has become one of the foremost men in the nation in bacteriology.

He recently was granted a U. S. patent describing a bacteriological process for increasing the secondary recovery of oil. Concerning this and allied developments, Mr. W. R. Boyd, Jr., president of the American Petroleum Institute recorded on the editorial page of the current API Quarterly: "In that spirit and dedicated to that cause, the American Petroleum Institute is happy to present to the world the results of the work of Dr. Claude E. ZoBell in discovering the use of certain types of bacteria to increase the recovery of oil from underground deposits. Just what Dr. ZoBell's discovery may mean in the future, no man knows; but it is an important one. Man has learned something new. My sincere congratulations to Dr. ZoBell and his associates for their work and constant willingness to assist in adding to the store of man's knowledge without hope of direct or immediate benefit for themselves."

Dr. ZoBell's patent was assigned to the use of the public.

Another publication to hail the discovery was Time Magazine in their issue of January 20, 1947.

Dr. ZoBell's activities are many. He continues to serve as chairman of the committee for the application of microbiology data and methods to pearology under the auspices of the National Research Council. He is editor of the University of California publications in microbiology and associate editor of the SIO technical bulletin. He was recently nominated delegate and elected vice-president of the Fourth International Congress of Microbiology in Copenhagen, Denmark, July 20-26, 1947.

Dr. ZoBell graduated from Utah State in 1927 and is a life member of the Alumni Association. He is married to Aggie graduate **Margaret Harding '30**.

MRS. VERA CARLISLE

Mrs. Verna Carlisle, '33, nationally known child development specialist, has been appointed to the professional staff of the National Society for Crippled Children and Adults, Chicago, Ill.

Mrs. Carlisle has just completed an intensive training course in the care and treatment of cerebral palsied children at the Michael Reese nursery school under the direction of Dr. Meyer A. Perlstein. An authority on cerebral palsy, Dr. Perlstein is a member of the Medical Advisory Council on Cerebral Palsy to the National Society.

With a background in nursery school education and nation-wide experience, Mrs. Carlisle is well qualified for her work of assisting state and local treatment centers for pre-school cerebral palsied children who desperately need such care.

Mrs. Carlisle received her B.S. degree and M.S. degree in child development at Utah State. She also has done graduate study at Merrill Palmer Institute, Detroit, Mich.

Her former positions include: state supervisor, Illinois Child Protection Program; assistant professor and head of the department of child development, Utah State Agricultural college; and state supervisor of the nursery school program in Utah.

During the war Mrs. Carlisle was the regional field representative for six states, setting up wartime child care centers for the Bureau of Community Facilities, Federal Works Agency. Her most recent assignment was field representative for the United Nations' National Emergency Food Drive.

Professional groups in which she holds membership include: National Association of Nursery Education, Association of Childhood Education, National Education Association, Progressive Education Association, National Parent Teachers Association, the American Academy of Political and Social Sciences, and the American Association of Home Economists.

Leonard McDonald Appointed Secretary of Alumni Association; Heads Division of College Development and Alumni Relations

Leonard W. McDonald '39, former Executive Secretary of the Alumni Association, and more recently business manager of the Utah State Industrial school at Ogden, was appointed Aggie Alumni Association Executive Secretary and assistant editor of college bulletins.

D. A. Skeen of Salt Lake City, president of the Alumni Association, announced the appointment April 19, which was approved by the college board of trustees at their meeting that day.

A new division has been created, known as the College Development and Alumni Relations—which Mr. McDonald will head. He will begin his new duties May 15, following resignation of his position at the industrial school.

The Alumni executive post has been vacant since July of 1946 when Jack Croft resigned. Since then, Mrs. Bernice Gray has been acting secretary.

Mr. McDonald graduated from the Wasatch high school in Heber City in 1932, after being valedictorian and most active senior class member. He graduated from Utah State in 1939

Leonard W. McDonald '39

with a major in economics and was named to Phi Kappa Phi, national honorary scholastic fraternity. He

was on the editorial staff of Student Life for four years, was editor of Scribble magazine for two years, did considerable journalistic work for the college, and studied as a post graduate for four quarters. He was subsequently assistant to the director of correspondence study for three years.

In 1941, Mr. McDonald was appointed Alumni Executive Secretary and editor of the Alumni Quarterly. He served until June 1944 when he accepted the editorship of the Utah Farmer in Salt Lake City.

In November 1945 he was appointed business manager at the industrial school.

Active in civic affairs, he has been an officer of the Logan Lions club, deputy district governor of Lions International, and is now a member of Ogden Lions club.

His wife is the former Arola Bott, a USAC graduate of 1937, and also a member of Phi Kappa Phi. She has done graduate work in dietetics in the east, and was on the staff of Mt. Sinai hospital in New York. The couple have two children, Jimmy and Mary Ann.

TWO AGGIE ALUMNI WIN POSTS ON COACHING STAFF

Joe Whitesides '36 was named basketball coach at Utah State to replace H. B. (Bebe) Lee, resigned, and Marvin Bell '42, coach at Logan senior high school, was appointed assistant coach for the frosh by the board of trustees at a meeting in April. Coach Lee resigned at the end of the basketball season to accept an offer in private business in California.

Whitesides, who was assistant to Lee during the current year, has been on the coaching staff of the college since 1937, with the exception of five years he spent in the armed forces. He came to the college from Davis high school and participated in football, basketball and baseball.

Marvin Bell, former backfield star for the Farmer grid squad, and head football and track coach at Logan high school during the past year, will pay particular attention to the freshman program. The versatile Bell, recognized as one of the best students of Romney's T-formation system ever to play with the Aggies will resign his Logan high school position at the end of the current year.

Whitesides entered the college in 1932, and during his career was captain of the Aggie football team. Following his graduation he coached at Bear River high school 1936-37 coming to the college the following year as frosh coach. This position he retained until called into active service with the Utah National Guard

March 3, 1941. He served overseas from August, 1942, until December, 1945, after which he came back to the college.

Bell completed post graduate work at the college in 1946, and then took his position with the Logan high. "Dingle," as he is called, served with the navy recreation service during the war. While at college he was an all-around athlete and was captain of Aggie football teams for two years.

In addition to football, he played basketball and participated in track.

"Joe has the support of all members of the coaching staff, the athletic council, and officials of the A-men's organization", stated one college official. "Many of Joe's supporters are elated with the appointment because of their faith in his ability, and also because they subscribe to the practice of giving recognition to

Utah State - - "Crossroads of the World"

By Noel Benson

"Utah State, Crossroads of the World," might well be the title applied to the Utah State Agricultural college today. Students from every section of the globe are attending the college, having been brought here by its ever increasing fame.

Iran furnishes the major portion of the non-English speaking foreign students attending the college. To date, 16 of these students are attending classes at the college. Colombia from our Latin American relative, South America, furnishes three students. India and Lebanon both have two students representing their country at the college while one student comes from each of the following: Burma, Peru, Greece, Belgium, Iceland and Slovenia. Fifteen students from the neighboring provinces of Canada are also in attendance at the college.

The engineering department of the college is evidently the most widely known of the branches of the college. Nineteen students of the total of 45 foreign students registered at the college have signed up for engineering courses. The agricultural department of the college runs a not-too-close second with 12 students. Forestry and home economics each have attracted five from this group. Three students are majoring in the arts and sciences while the school of commerce, which boasts of being the oldest west of the Mississippi, has one student majoring in that department.

Graduate Students

Not all of the students are undergraduates. Many of them have attended other universities and schools and many hold degrees. No less than nine of the 45 are graduates of some other university or college and hold degrees from them. They are here for post graduate work along specialized lines. A further breakdown of the relative class standings show that six of them are seniors, six are juniors and seven are sophomores. As may be expected, the freshman class has the largest enrollment with 17 of the foreign group holding that rank. Most of the foreign students, Canadian students excluded, are quite young. The average age of this group is close to that of a pre-war college student, being 21 years of age.

The foreign students attending the college had little or no trouble adjusting themselves to their new surroundings and the American way of doing things. A typical student is Abbas Ghaffari, a freshman arts and sciences major from Iran. When he first landed in the United States, he was enrolled at an Americanization institute in Michigan which familiarized him with the English language and which was designed as an orientation guide. "While dress is quite similar in Iran, there were many

Looking over the college catalog are three of the foreign students, left to right: Than Myint, Burma; Ashmod Amer, Lebanon; and Muna Kharly, Lebanon.

perplexing problems which confronted me upon my arrival in the United States," Mr. Ghaffari stated. "My five months attendance at the Americanization institute in Michigan aided me greatly." Mr. Ghaffari has made rapid adjustments to American college life. He, together with several of his countrymen, have joined fraternities on the campus and are taking an active part in the college functions.

Women Join Sororities

The two Iranian women on the campus also have joined sororities. One of these, Miss Vida Khasi, who resides at the campus residence hall, speaks flawless English. She can carry on a conversation with an ease which is the envy of many of the coeds who have been raised in this country. "The dress in this

country is quite similar to that in my homeland. The dress for the women in this country allows more freedom than does that of my homeland. However, western civilization has done much toward modernizing the dress of the Iranian people. It has also influenced greatly the trend of thought. Most Iranians can talk as ably on current world affairs as can the average American citizen," she stated.

The educational set-up of Iran is quite similar to that of the United States. At the time a child is five years of age, he is entered in an elementary or preparatory school. This he attends for six years. At the end of six years, he is granted a certificate of attainment. He then enters the Iranian equivalent of our high

(Continued on Page 10)

Society of 50 Year Graduates Plan Reunion

Second annual reunion of the "50 year club" is scheduled for June 7 when members of the Class of 1894 and 1896 will welcome members of the Class of 1897 into the organization to celebrate the fiftieth anniversary of their graduation from Utah State Agricultural college.

Inauguration of the "50 year club" was held during commencement 1946. Annual reunions for the club are planned and each year the club inducts those alumni meeting for the golden anniversary of their graduation.

Walter W. McLaughlin '96, Berkeley, Cal., chairman of the "50 year club" stated that of the 15 graduates of the Class of 1897, the seven surviving members are expected to attend.

Following the graduation exercise on June 7, the 50-year graduates will meet in the Commons Building for lunch and a business session. Activity of the club is primarily interested in promoting the college.

The class of 1897 consists of:

Clara Louisa Foster Bacon

LOAN FUND ESTABLISHED

Mr. and Mrs. Robert L. Judd

A new loan fund to honor the memory of Robert L. Judd '09, for many years a member of the USAC board of trustees and past-president of the Alumni Association, has been founded at the college by his widow. Mrs. Judd established the fund to help undergraduate men who have ability and who need financial aid to carry on their studies at USAC.

Administering the fund will be a committee consisting of R. E. Berntson, executive secretary-treasurer; Dr. Daryl Chase, dean of students; and Mrs. Phillip A. Bullen, Logan. Mrs. Bullen is a daughter of Mr. and Mrs. Judd and a 1937 graduate of USAC. She also received the graduate certificate in social work from

the college in 1943.

Mr. Judd graduated from Utah State in 1909 and was a life member of the Alumni Association. He was president of the Alumni Association in 1938 and served for many years on the board of trustees and was an active supporter of the college. He was a prominent Salt Lake City attorney and the son of Thomas Judd, outstanding pioneer leader in scientific agriculture in Utah.

Mrs. Judd, who lives in Salt Lake City, is a daughter of the late Heber J. Grant, former president of the LDS church. She is a member of the general board of the National Women's Relief Society of the church.

Plans Progress For Union Building

"It's something that's way over due on the Aggie campus and we mustn't let anything stop our efforts this time to see the Union Building through," stated Pres. Franklin S. Harris to members of the newly appointed Union Building committee just prior to their first meeting held March 28.

The Union Building Construction committee, headed by Hyrum Blackhurst, vice-president of the board of trustees, includes Daryl Chase, dean of students, Lyn Larsen, president of the student body and the Alumni Secretary. Chairman Blackhurst opened the meeting with the same trend of thought as Pres. Harris expressed, and the committee vowed that now was the time for action.

With the passing in the state legislature of a bill allowing the University of Utah and Utah State agricultural college to raise the student building fee to \$20, the committee figures half the financing battle is won. With a normal enrollment of 3500 the gross income for the Union Building will run close to \$70,000 a year.

Several months ago, students of

the Executive Council met with the Board of Trustees to get the student building fund all earmarked for a Union Building and were definitely pledged that all student building fees exclusive of that which is being paid on the field house now, would be delegated to the Union Building fund.

President Larson prepared a questionnaire which was received with much enthusiasm by the students on election day, asking students just what they wanted in their Union Building. Faculty members were also given one in faculty meeting.

Much has already been done by the committee in gathering material from other unions throughout the country. According to Chairman Blackhurst, the building will be pushed forward just as fast as is feasible and that at commencement time some definite statements such as the location, cost and an architect for the building will be announced.

"We want this building to be one that will be used by all the students and not a rich man's club as is the case in most of the primary unions in the country," Dean Chase stated.

UTAH STATE'S 21ST ANNUAL COACHING SCHOOL.... JUNE 9 to 13, 1947

LEE PATTON
HEAD BASKETBALL COACH
WEST VIRGINIA U.

E.L. "DICK" ROMNEY
DIRECTOR, UTAH STATE

WALLACE BUTTS
FOOTBALL COACH,
U. OF GEORGIA

By Lyn Larson

The 21st annual Utah State summer school for coaches will be held June 9 to 13, inclusive, on the Aggie campus, with Coach Wally Butts, head man of Georgia's undefeated, untied Bulldogs, and Lee Patton, West Virginia university basketball coach, as guest instructors.

Plans for the Logan grid-and-court clinic, which during a score of years has achieved national prominence, were announced recently by E. L. (Dick) Romney, director of athletics and head coach at Utah State.

Last year, Romney presented to western America mentors, the fabulous Frank Leahy of Notre Dame, and Henry P. Iba, basketball coach at Oklahoma A. & M. In selecting Butts and Patton for the school this summer, he picked off two of the country's most popular athletic figures.

The University of Georgia football team of 1946, powered by all-American Charley Trippi, was one of the greatest in that institution's history. It was spectacular offensively, and as Georgia's first unbeaten and untied team since 1896, it was undeniably the most successful.

With Trippi spearheading the offensive, Coach Butts' high-scoring

machine averaged 37 points a game in sweeping a 10-game slate, and finished second to Notre Dame in total offense, with an average of 394.6 yards a game. The 1946 Bulldogs also were the nation's most air-minded team, leading all major elevens in passes completed and total pass yardage. The closest rival was Oklahoma A. & M., which Georgia defeated, 33-13.

Georgia scored in every conceivable fashion. One writer described them as being a team like the New York Yankees of the Babe Ruth era—a home run or nothing. Trippi ran 68 yards against Kentucky to score, 66 against Georgia Tech, and 46 against Alabama.

Patton of West Virginia knows the sweetness of success, also. In his first season last year, Patton's team won 22 in 24 regular games, losing only to Temple and Navy, and placing third in the national invitation tournament at Madison Square Garden. West Virginia lost to Kentucky, eventual champion, by a 59-51 score in the semifinals. In the annual A. P. poll, West Virginia ranked fifth best in the nation.

This year, the Mountaineers were undefeated in 12 straight games until being nosed out by Navy at Annap-

olis, 57-55. Patton went to West Virginia from Iona, N. Y., prep, where he served as coach in 1944, after 14 years as coach of Princeton, W. Va., high school. At Iona, Patton's football team was undefeated, and his basketball team reached the finals of the metropolitan Catholic tournament. He consistently turned out strong football and basketball teams at Princeton.

The genial Mountaineer coach is a native of Texas, and a graduate of Arizona State and Springfield, Mass., colleges. He favors the fast break and man-to-man defense, stressing speed and moving the ball—which might account for the fact that in its first 12 games this season, West Virginia averaged 74 points.

In college, Patton won letters in football, basketball and baseball. His Princeton high school teams won 12 sectional hoop championships and seven regional titles. His Iona court club went to finals of Metropolitan Catholic school tournament in New York City.

Coach Butts of the Georgia football champs has a kewpie's build and a face as naive and innocent as a choir boy's. Although he may look tender, he has tamed more rugged indi-

(Continued on Page 10)

Members of 1926 Championship Basketball Team Honored at Dinner Given by "A" Men

The glory that was theirs 20 years ago was relived by members of the 1926 Utah Aggie basketball team when they met for dinner February 14 at the Eccles Hotel in Logan.

The "A" Men's organization gave the banquet in honor of this team which two decades ago became champions of the Rocky Mountain Conference. In charge of arrangements was **Herman Nelson '26**, secretary of the "A" Men.

Dr. E. G. Peterson, president emeritus of Utah State, was master of ceremonies for the program, which featured **E. L. "Dick" Romney**, **Newell "Hod" Sanders '27** of Kaysville and a member of the honored team, and **H. B. Lee**, basketball coach at USAC, as speakers.

About forty attended the dinner. Following dinner, the group attended the USAC-U of U game at the field-house. Members of the "Team of 1926" were introduced to the crowd at the half time period.

Representing the college during the 1925-26 year, the honored team won from the University of Southern California 53-17. They won the Western Division of the Rocky Mountain Conference and played Colorado State Teachers, representative of the Eastern Division, for the championship. Utah State won 39-23, 48-22, and 40-26.

Men to win the official letter for basketball that year were:

Newell "Hod" Sanders '27, a three-letter man, football, basketball and track. Played guard in 1926. Won all-conference honors. Since leaving school has been ranching and also connected with the Clover Leaf Potato Chip Company in Kaysville, Utah.

Ellis "Red" Wade '29, a three-letter man, football, basketball and track. Guard in 1926. Now successful high school coach. Was National Guard officer in World War II.

Addington Martindale '28, two-letter man, football and basketball. Guard in 1926. After college was coach, teacher and principal.

Glen Worthington '29, three-letter man, football basketball and track. Center in 1926. Participated on four conference championship track teams, 1924, 1925, 1926 and 1927. All-conference center in basketball and record holder in hurdles. Received big league baseball team offers. Became coach and outstanding recreation leader.

Robert Gibbons '28, two-letter man, football and basketball. Guard in 1925. All-conference football guard. Became teacher, insurance salesman, and chaplain in the army.

Warren Hawley '28, three-letter man, football, basketball and track.

Center and forward in 1926. In transportation business, he was an officer in World War II.

Cantril Nielsen '28, two-letter man, football and basketball. Forward in 1926. One national syndicate proclaimed him one of the outstanding forwards of the year and nicknamed him "Flash". He saw play when the Aggies beat University of Southern California. After college he was postmaster, politician, farmer, coach, and salesman in several lines.

Harold Williams '29, letter in basketball. Forward in 1936.

Squad members who didn't win letters that year, but did later on were **Neal Bennion '28**, **Phillip Horsley '27**, **Vernal Harris '28**, **Vernon Love '27**, **Howard "Tuff" Linford '28**, and **Edward Gills '27**.

Records show that during the years these fellows competed on the football team they were successful in winning a majority of the games. They won from the University of Utah in 1923, 1925 and tied with Utah 1924 and 1927. They dropped the 1926 encounter.

Officers of the "A" Men's Organization, in charge of arrangements are: President, **Cantril Nielsen '28**; vice-president, **Marvin Bell '42**; and secretary-treasurer, **Herman Nelson '26**.

Members of the 1926 Utah State basketball team were feted February 14 at a dinner. Standing, left to right, **Howard "Tuff" Linford '28**; **Newell "Hod" Sanders '27**; **Cantril "Flash" Nielsen '28**; **Ellis "Red" Wade '29**; **Glen Worthington '29**; **Vernon Love '27**; and **Bob Gibbons '28**.

Seated are **George "Doc" Nelson**, veteran trainer at Utah State; **E. L. Romney**, athletic director and coach of this 1926 team; **Dr. E. G. Peterson** and **Theron Smart**. This was one of the greatest athletic aggregations in the state's sports history and heralded Aggies' "golden era" in intermountain athletics.

Utah State's 20th Annual Coaching School Slated

(Continued from Page 8)

dualists than Clyde Beatty.

It is perhaps fitting that James Wallace Butts has produced the Bulldogs' most successful football team. For he, himself, is an all-Georgia product. Born at Milledgeville 42 years ago, he was educated at Mercer university, and learned most of his early coaching technique tutoring Georgia prep schools.

His over-all coaching record for eight seasons at Georgia is 59 wins, 21 losses and two ties. This does not include the three bowl victories his teams have scored.

Affable and easy to approach, Butts is as southern as sassafras, and has a droll sense of humor. Once, a girl reporter asked him to explain his coaching system in a few well-chosen words. Never one to delude a representative of the press, Wally drawled: "Why, honey-chile, we use the plain ole color system. We just knock down everything not wearing our kind."

Fourth President Of Utah State Succumbs

Dr. William Jasper Kerr, 83, fourth president of Utah State Agricultural college died April 15 in his home in Portland, Ore. He had been ill for several months.

At the time of his death, Dr. Kerr was chancellor emeritus of the Oregon state system of higher education. He participated in the formation of Utah's constitution and was one of six surviving delegates to the Utah constitutional convention of 1887 and 1895.

Dr. Kerr left Utah in 1907 when he was appointed president of Oregon State college, a position he held for 25 years. He was named first chancellor of Oregon's unified system of education in 1932 and chancellor emeritus in 1938.

Dr. Kerr was born in Richmond, Cache county. He received his A. B. degree from the University of Utah and later his doctor's degree from Cornell university. He became an instructor at Brigham Young college for one year and later served as professor at the University of Utah.

Before moving to Oregon, Dr. Kerr was president of Brigham Young college from 1894 to 1900 and of Utah State Agricultural college from 1900 to 1907.

Besides his widow he is survived by two sons and five daughters: Robert Marion Kerr, former chief prosecutor for Japanese war crimes, and Mrs. Vesta Reynolds, Portland; Mrs. Leona Skeinn, Salem, Ore.; Mrs. Laynette McGinnis and Mrs. Genieve Henry, Spokane, Wash.; Mrs. Coral Aldous, Manhattan, Kan., and Gerald M. Kerr, Salt Lake City; three sisters: Mrs. A. F. Johnson, Logan; Mrs. A. L. Harris, Richmond, and Mrs. D. A. Skeen, Salt Lake City; also several grandchildren.

CROSSROADS OF THE WORLD---

(Continued from Page 6)

school where he studies for five years. Upon completion of these five years of study, he is granted a diploma attesting to the fact that he has completed eleven years of schooling. For those who wish to go on and gain further knowledge, an additional year of study is required before entrance into a university can be effected. This additional year of study is divided into three sections.

Upon completion of this year of instruction, the student is eligible to enter any university. Most of them elect to attend the University of the Sun and the Lion, the most outstanding Iranian University. Many of them decided to go to universities and colleges in other lands. The majority come to the United States. Because of the technicality of the studies which they pursued and the scope of the subjects, many of them are granted sophomore standing upon entrance into American universities.

Cosmopolitan Club

An extremely popular activity among the foreign students enrolled at the college is the Cosmopolitan Club. This club claims for its membership the foreign students who are attending the college and any foreign student attending the college is eligible and invited to join. The club meets twice monthly in the LDS Institute on college hill. It is both a social and a cultural organization. According to its constitution, the club is designed to "promote better understanding among the students and the several countries they represent." At a recent meeting of the club, Dr. Jose Alvarez Gonzales, Jose Luis Prato, and Dr. Arenjo, three of the members of the club, gave a discussion on customs and practices of their native land of Colombia. Each night a particular subject is to be discussed, the meeting is turned over to the group in charge. All the meetings are informal

in nature. If corrections in English are made they are taken in a good humored fashion.

Dr. S. M. Ahi is president of the club. He holds a degree from several American Universities as well as one from the University of the Sun and the Lion in Iran. He is at the present time studying the relationship of the organism which causes mastitis in cows to certain diseases produced in man. His inoculations of various animals have proved to be highly interesting and informative.

Wife Studies Home Ec

Dr. Ahi's charming young wife is studying home economics while they are living in Logan. Dr. Ahi is also acting as advisor and supervisor for the students from Iran. He is well liked and has the admiration and respect of all the students and professors with whom he comes in contact.

Vice president of the club is Mohammed Kamaly, who comes from Teheran, Iran, and do most of the Iranian students. He is a freshman majoring in the school of agriculture. He is well educated and can speak intelligently on any number of subjects. Although only in his early twenties, he is the master of five foreign languages.

Secretary of the group is Edith Shepherd who comes to Utah from Canada. She is a sophomore in the school of home economics. She is employed in Dean Carlton Culmsee's office. Faculty advisors to the group are Ione Bennion, dean of women, and Dr. Daryl Chase, dean of men. Dr. Chase is also acting as registration advisor to the non-English speaking students who register at the college.

With almost daily inquiries pouring into Dean Chase's office from foreign countries requesting information about the school, it appears that the number of foreign students attending school here next year will be greatly increased. Truly, Utah State is a crossroads of the world.

Denver Alumni Chapter Elects 1947-48 Officers

Ellis L. Armstrong '36 was elected president of the Denver Aggie Alumni chapter succeeding E. James Carlson '38. Elections were held at a dinner meeting at the LaRay Hotel in Golden, Colorado on April 5.

Dinner was served to 29 members in the new dining room of the hotel beginning at 7:30 p.m. To add more life to the party, partners were separated and introductions were made around the room. Highlights of the program were short talks by the oldest and youngest Aggies present. The oldest Aggie was represented by Mr. John T. Caine III '03 who discussed the topic, "Leadership, the Greatest Commodity Utah Produces." Lorrin Hawkes, the youngest Aggie, described some of his recent exper-

Elmer H. Ward Advanced To Colonel In March

Promotion of Elmer H. Ward '35, director of operations, quartermaster supply section, Utah general depot, Ogden, to rank of colonel was announced in March.

At the same time Col. Ward announced he has been placed on an inactive status by the army. A native of Willard, Utah, Col. Ward will continue as operations director as a civilian.

iences while with the army.

After dinner time was spent singing Aggie songs and elections were held. Assisting Mr. Armstrong will be John Stewart '40, Lorrin Hawkes and Cleo Copen on the Executive Council. They will hold office for the year 1947-48.

Majors In Child Development And Guidance Receive Practical Training At College Nursery

The department of child development in the school of home economics at the Utah State Agricultural college operates the college nursery school. This serves as a demonstration center for students enrolled in the courses in child development and guidance and as a practice center for child development majors who are preparing for teaching. There, college girls are given an opportunity to observe young children in action, and senior majors in child development are given an opportunity to apply their previous training.

The nursery school is under the direction of Miss Helen Porter, head of the department of child development, and Miss Oral Pugmire, head teacher at the nursery. These two teachers are always in attendance at the school during the day.

Miss Porter and Miss Pugmire are assisted by a staff of four to six practice teachers who, after a period of observation, take their places as actual instructors of the children. Each girl spends fifteen hours a week doing nursery work. Only two or three girls are with the children at one time.

School Is Laboratory

A lower division class uses the nursery school for a laboratory, observing the children in play and routine situations. Inasmuch as the indoor play space is small and students need to see children in natural situations, only five students are permitted to observe each hour.

The children taken into the nursery school range between the ages of two and five. At present there are 14, children two or three years old attending in the morning from 8:45 until 12:30 and 14, four-year-olds attending in the afternoon from 1:45 until 4:00. The school is open five days a week.

Children are taken in order of their application. Many children have had their applications in almost since birth. At times the application list has contained as many as a hundred names. An effort is made to balance the groups according to ages. As need for a three-year-old arises in the school the first child of the desired age on the waiting list is given an opportunity to enter the nursery. A tuition is charged which covers only the cost of the food served at the school.

The nursery school itself is a children's world. The rooms are planned for them and all furniture and equipment is scaled to children's size. There are very few things, except those in the office, which the children may not touch.

The building, a large frame house on the campus, has two floors. Upstairs is the office and a student reading and conference room. A "rainy day" room with a sandtable,

By Barbara Faire Jones

the testing room in which I.Q. tests are given the children, and a cloak room are also upstairs. Downstairs there are three sunny play rooms. These rooms are filled with books, paints, dress-up clothes, dolls, doll buggies, blocks, a carpenter's table, and many other toys. There is another cloak room downstairs. The younger children identify their compartments by means of little pictures pasted to the walls. The four-year-old children seem to recognize their names which are written on cards and placed over their lockers. There is a bathroom with low fixtures, where the children identify their belongings by the same methods as used in the cloak room.

Play Equipment Used

The grounds surrounding the nursery school are filled with children's play equipment. There is much climb-

nishes the children with about half of their daily food requirements.

Each morning and afternoon when the children arrive, they are checked over by the nurse. If any child has a temperature, signs of a sore throat, or any disease he is sent home. The testing room upstairs is furnished with cots to be used to isolate an ill child until his parents come for him, or for children who are tired or who have been hurt.

Plenty of Free Play

The program arranged each day for the children allows them long periods of free play in which they may choose what they wish to do. These periods are broken by intervals in which the teachers direct their play or activity toward story telling, singing, or marching. Often outside talent is brought in for the enjoyment of both children and teachers. Once a week the children are taken on an excursion to some part of the campus such

Left to right: Bille Baker, Shohrokh Ahi and Craig Yeates

ing, jumping, and balancing equipment, for it is at nursery school age that children become interested in these skills. There are a rabbit hutch and a play house. The playhouse is complete even to a tiny fireplace.

The kitchen in which meals are prepared is downstairs in the nursery. Mrs. May Hugie, nursery dietitian, plans and prepares the children's meals. Each morning fruit juice and cod-liver oil are given the children and during the afternoon the older children receive milk and a cookie. The younger children receive their lunch at the nursery before they return to their home. This meal fur-

as the barns or one of the museums. Each group of children also is given a free play period outside. The afternoon children's routine in play differs from that of the morning group only in that the children indulge in more cooperative group play. Teachers always are assigned to certain playrooms or play areas to avoid having any child play unobserved. Toward the end of each quarter the practice teachers take turns in planning the week's activity for the children and in assigning one another jobs to be done.

The demand for the courses in
(Continued on Page 13)

AGGIES HERE AND THERE

William Hayes '38 has been appointed extension forester and assistant state forester of Nevada.

Alma J. Knapp '11, science and modeling instructor at Mound Fort high school in Ogden, recently returned from Ann Arbor, Mich., where he has been studying with Dr. Avarad Fairbanks, noted Utah sculptor, at the University of Michigan. Dr. Fairbanks is executing a number of monuments for the centennial and Mr. Knapp assisted with some of the pieces.

Lorenzo DeMars of Brigham City, Utah, was presented in a special recital of advanced piano students at the Brigham Young university recently.

Wilford L. Hansen '31, supervisor of the Uintah national forest since 1945, has been named head of watershed management in the intermountain region of the U. S. Forest Service, with headquarters at Ogden. His new duties will be to correlate all watershed land uses in the national forests.

Mrs. LaRae Chatelain is with the home economics department at the Bear River high school in Tremonton, Utah.

Jack Horton was recently elected commander of the American Legion Post No. 49. He is assistant superintendent of the Utah State training school in American Fork.

Mrs. Thelma Brown Lewis, former official at Utah State, was a member of the United States delegation to Moscow U.S.S.R., headed by Secretary of State, George C. Marshall.

G. Alvin Carpenter '34, Utah State Agricultural college extension marketing specialist, is featured in the March issue of the Cooperative Digest, national monthly magazine of agricultural cooperation. His contribution to the issue is an article entitled, "Truth in Truism," concerning proper relationship between officers and members of farm cooperatives.

Owen Slaugh has been appointed instructor in automotive technology at Utah State.

Col. E. W. Timberlake, head of the USAC military science department, has been assigned commander of the anti-aircraft military reserve officer training corps summer camp to be held at Ft. Bliss, Texas, between June 21 and August 2.

Owen H. Hall '39 has been appointed by the Cache Valley Council, Boy Scouts of America, as a field scout executive.

Edgar L. Sorensen has been appointed state seed supervisor with the state department of agriculture.

John Drummond '37 has been appointed state extension forester for the state of Montana.

Dr. H. J. Milligan '37 returned to Cache valley recently to join the ranks of professional men. He opened his suite of dental offices in Logan.

Dr. Byron T. Shaw '30 has been appointed assistant administrator of the Agricultural Research Administration, U. S. Department of Agriculture.

Elaine Norr of Tremonton, Utah, is now spanning the continent as a United Air Lines stewardess. She has been assigned to the company's western division.

Robert Gibbons '28, well known educator in northern Utah and southern Idaho, has been appointed to help supervise on-the-job training in agriculture for Cache county schools.

Forrest Jensen '39 has gone into building contracting business in Denver, Colorado. He and his partner are known as "Denver Builders." Mr. Jensen and his wife, **Mary Lindsay Jensen C'41**, are making their home at 1645 Syracuse in Denver.

Mrs. Irene T. Fletcher, wife of Prof. Calvin Fletcher, has been honored by the Utah Institute of Fine Art with one of its annual purchase awards. Mrs. Fletcher has received all her art training at USAC and has been chosen to represent Utah in several national shows. She is also represented with an oil in the state fair permanent collection.

Lorraine Musulas Phillips is making her home in Bellaire, Ohio, where her husband is associated with his father in gas well drilling operations. They have a daughter, **Sandra Kay**, nine months old.

Alden S. Adams '31, former assistant Davis

county agricultural extension agent, was recently appointed to the newly created position of Davis county sanitarian.

Max D. Weaver was announced winner of a large reproduction of an oil painting in a contest featured on Nan Caldwell's Kaleidoscope broadcast over radio station KVVU in Logan. His letter on "How to Decorate Your Home With Beautiful Pictures" was accorded first place by the judges. Mr. Weaver is a former student of art at USAC, and at the present time teaches an evening art class for veterans at the college. He is employed at the state tax office.

John Clark Ballard '47 has been awarded an assistantship at Cornell University for the school year 1947-48. He will do research in tomato breeding.

Francis M. Coe '37, on leave from the college as head of the horticulture department, is one of nine American instructors at the Army Education Center in Berlin, Germany.

Beth Geddes has been assigned to the position of traffic representative for the Logan office, Western Air Lines.

Dr. Don C. Gunnell '39 opened his dental suite in February in the east wing of the new Lundberg motor building.

Dr. W. Ernest Carroll '09, head of the department of animal husbandry, University of Illinois, has been named associate director of the agricultural experiment station there.

John M. Anderson '32, is head of the music department of Ricks college in Rexburg, Idaho.

Horace L. Jensen, assistant forest ranger at Preston, Idaho, is temporarily at the U. S. Forest Service offices in Ogden doing special work collecting and compiling data on the value of improvements dependent upon the mountain watersheds in Weber and Morgan counties.

Serge N. Benson '28, was recently appointed by the Ways and Means committee of the U. S. House of Representatives to its professional staff as tariff advisor. Mr. Benson has been a commodity specialist for the tariff commission for over 17 years.

H. F. Thornley '36, U. S. Department of Agriculture grasshopper control field supervisor, has been transferred to USAC for active duty in Utah. He will work in close cooperation with state grasshopper control leaders.

Dr. Laurence A. Stoddard, USAC professor of range management who is chairman of the nation-wide American Wildlife Federation's range wildlife division, and **Dr. Jessop B. Low '37**, professor of wildlife management and biologist for the U. S. fish and wildlife service, attended the five-day meeting of the Federation in February in San Antonio, Texas. Dr. Stoddard presided over technical sessions on coordination of rangeland use by livestock and wild game. He also represented USAC in a meeting of the wildlife research units attempting to standardize research methods. Dr. Low, is a leader of the federal-state-college cooperative research technique based on his units work in Utah.

Betty Lou Spendlove C'48 has had a poem published in the National Anthology of College Poetry. The poem is entitled "Prayer for the Weary."

Charles H. Carter '23 has been promoted from acting chief design engineer to regional engineer for region number 4, Bureau of Reclamation. In his new position, he will have supervision of all bureau construction in Utah, Nevada, western Wyoming, western Colorado, northwestern New Mexico, and south-eastern Idaho.

Doyle Green, former extension editor at Utah State, has been appointed assistant managing editor of The Improvement Era, LDS church magazine.

Herb Holthouser, former naval instructor assigned to USAC, is now affiliated with radio station WBKB, the television station in Chicago, Ill.

David L. Bischoff '40, Professor C. J. Sorenson '14 and Dr. G. F. Knowlton '23, had an opportunity to talk over old times while attending the Northwest Truck Crop Insect Control conference at Portland, Ore., in January. Bischoff has a responsible position with the Washington Canner's Cooperative in Van-

couver, Wash.

Dr. Ray L. James '32, is now extension specialist in entomology at the Michigan State college of agriculture and applied science.

Arthur Wallace '43, is doing graduate work in soils at the New Jersey agricultural experiment station at Rutgers university in New Brunswick, N. J. **Dr. Sterling J. Richards '33** and **Dr. Robert Henry Daines '29** are on the faculty at Rutgers.

Fred Imhof '43 is employed by the Lumbermen's Industrial Relations Committee, Inc. This committee represents the management of numerous sawmills and logging operations in western Washington and northwestern Oregon in labor negotiations with the unions. He was released from the navy last August with the rank of lieutenant.

May S. Coray '41 is employed by the Soil Conservation Service in Kemmerer, Wyoming.

G. Neldon Stocking '37, is teaching in the Homedale, Idaho, schools.

Stanley James Thayne is wearing the wings of a United Air Lines pilot having completed the company's flight training school at Denver, Colorado. He is stationed at Salt Lake City, Utah.

Three USAC extension service officials attended the western region extension supervisors' workshop, held at Pulman, Wash., in March. **R. L. Wrigley '35**, assistant director of extension for agriculture; **Mrs. Myrtle D. Peterson '29**, assistant director for home economics; and **David Sharp Jr. '13**, state 4-H Club leader, represented Utah at the meet which was attended by 47 extension leaders of 10 western states.

L. M. (Dick) Howard '47, has been appointed football coach at the Bear River high school in Tremonton, Utah.

Dan Ludlow '46, is selling insurance for the New York Life Insurance Company in Logan.

Don Nielson '42, has been appointed assistant instructor in the vocational agricultural department of the Fielding, Utah, high school.

R. Phil Shumway '47, has been appointed assistant Utah county agricultural agent with headquarters in Provo, Utah.

Harold Cowley '42, has accepted a position as field supervisor for the Utah-Idaho Sugar company in Yakima, Wash.

Jim Wood '47, has accepted a position with the Utah-Idaho Sugar Company in Idaho Falls, Idaho.

A. O. Clark has been appointed supervisor of upper elementary grades in the Granite school district.

Dr. Reuben L. Hill '12, head of Utah State's chemistry department, is included in "Who's Who" in the Northwest, Vol. 1, just published at Larkin, Roosevelt and Larkin, Ltd., Chicago, Ill. Dr. Hill is known for his research in soft-curd milk and other fields.

Donald Ashdown '42, graduate in entomology and ensign in the navy during the war, has been elected chairman of the "Jugatae," graduate and faculty society of entomologists at Cornell University. Mrs. Ashdown is the former **Theresa Marie Hill '41**, daughter of Dr. and Mrs. Reuben L. Hill '12.

Clyde F. Hurst '42 is a sophomore student at the University of Oregon dental school. His address is 9106 North Woolsey St., Portland, Oregon.

Milton B. Taylor has been appointed secretary to Gov. Herbert B. Maw.

Dr. N. W. Christiansen '15, head of the instrumental music department at Utah State, will teach summer school with the visiting faculty at Columbia University, New York City.

Sterling Anderson '29, coach of the state championship Grantsville basketball team, announced at the end of the season that this was his last year in competitive athletics.

Melvin M. Peterson '41 has been appointed assistant Weber county agent.

Mont Harmon '35, is in Eugene, Ore., where he has been accepted in the graduate school of the University of Oregon for post-graduate study in school administration and supervision.

Robert Paulsen '47, has received a resident fellowship at the University of Utah. He will graduate in June with a degree in political science.

Graduate Is Radio Writer

Rita Jones Nash '43, staff writer for radio station KGYL in Salt Lake City, recently reported on her activities. In addition to writing programs for Utah's NBC station, she does broadcasting daily for a Salt Lake women's apparel shop and is the "Fashion Advisor" on the "Fashions in Music" program each evening.

Mrs. Nash finds her work interesting and is privileged to meet all the celebrities who flock to Salt Lake City. She is in charge of interviews for one of the morning programs and arranges and writes interviews with such well-known people as Paul Robson, Candy Jones (the model), Jack McVea, Grant Johannesen, the Goldwyn Girls, and any other notables she can inveigle up to the studio. Her biggest thrill came recently when she interviewed former Aggie, Peggy Bennion of Salt Lake City, who was home from her job in Hollywood as a movie reporter for one of the movie magazines.

Twins run in the agronomy department—or so it seems from the above pictures. To the left are JUDD C. WILSON and JAMES C. WILSON, 2½ year old twins of Prof. and Mrs. LeMoyné Wilson '27 (M'32). Prof. Wilson graduated from Utah State majoring in agronomy and is now teaching in that department at the college. To

With The Class of '69

Hazel Taylor Ellis and Stephen B. Ellis '39 announce the arrival of a son, Stanley G., born January 22 in Burley, Idaho. The Ellis's are at home at their Flying Diamond Ranch on Route 1, Burley.

Ruth Swenson Eyre C'44 and H. Dean Eyre '43 announce the arrival of a son, Chris Allan, born March 13 in Salt Lake City, Utah.

Thorna Bracken Ward and William B. Ward '40 announce the arrival of a son, Alan Miller, born March 2 in Ithaca, New York.

Eleanor Parkinson Porter C'41 and Dean O. Porter '45 announce the arrival of a son, Robert Dean, born November 5, 1946, in Chicago, Illinois.

Virginia Barham Sharp and Lt. David B. Sharp announce the arrival of a daughter, Linda Sue, born January 21. Lt. Sharp has recently been promoted to physical training officer in charge of athletics at Smoky Hill Air field, Salina, Kansas.

Two Ag Professors Write Irrigation Text

A new textbook on the fertility and management of irrigated soils has recently been released in preliminary form by the authors, Dr. D. W. Thorne '33, associate professor, and Dr. H. B. Peterson, assistant professor of agronomy and soils, Utah State Agricultural college.

Because soils texts have been written mainly for humid regions and ignore the problems of irrigation, the authors have written this book to explain the principles and practices of farming under irrigation and dry land conditions. The text has been issued in mimeographed form for use in classes this year. After revision in the light of classroom use it will be published for use in colleges in western United States where irrigation is practiced.

Both the authors are authorities on problems of western soils. Dr. Thorne graduated from Utah State in 1933 and received his M. S. and Ph.D. degrees at Iowa State college. He served on the staffs of Iowa State college, University of Wisconsin, and Texas A. and M. colleges before coming to Utah State in 1939 as associate professor of agronomy and soils. Dr. Peterson is a graduate of BYU and the University of Nebraska. He has been a member of the USAC faculty since 1940.

Nursery School---

(Continued from Page 11.) nursery training is growing, perhaps because many girls attending college are married or are getting married and home and family seem closer to them. This increased demand for opportunities to observe or teach the children has led to an effort to obtain a larger home for the nursery school.

the right are JOAN STOKER and JEAN STOKER, 5½ years old, and twins of Golden L. Stoker '32 and Armenia Willey Stoker '34. Mr. Stoker majored in agronomy while a student and is now seed certification specialist for the agronomy department.

AGGIE MARRIAGES

Lola Jean Gaddie and Edward T. Murdock were married January 25 in Las Vegas, Nevada.

Elizabeth Cardon '41 and Roy C. Barnason were married January 3 at the home of the bride's parents.

Norma Wright and Andrew Mayhall were married January 11 in San Francisco, California.

Orpha Walker and Robert A. Cornaby were married January 15 in the Salt Lake LDS temple.

Faye Miller and Edson E. Preece were married January 17 in the Logan LDS temple.

Norma Scholer and E. J. Holmgren Jr. were married January 15 in the Logan LDS temple.

Arlene Cox and Ralph A. Lemon were married January 20 in the Manti LDS temple.

Sarah Alice Egan and Wendell R. Harris were married recently in the Idaho Falls LDS temple.

Patricia Ann Jenkins and James E. Brown were married December 26 in the Memorial House, Memory Grove, Utah.

Roberta Harris and J. Wayne Fronk '40 were married December 4 in the Salt Lake LDS temple.

Margene Rigby and Lynn N. Bradshaw were married December 13 in the Logan LDS temple.

Clarice Thompson and Jean C. Petersen were married January 15 in the Logan LDS temple.

Rosalie Holyoak and Farrell G. Cooper were married December 6 in the Logan LDS temple.

Barbara Dunn and John W. Chambers were married December 27 at the home of the bride's

parents in Logan, Utah.

Faye Roberts and Wayne J. Meier '41 were married January 25 in the Harvard LDS ward chapel.

Susan Ann Catlin and Clyde P. Maycock '46 were married January 28 in the Washington LDS church.

Alice Huston and Clyde Marvin Earl were married January 19 in a high noon service in Cappila de San Antonio, Anaheim.

Vera Jensen and John L. Heggie '35 were married January 23 in the Logan LDS temple.

Kathryn Hess and Sidney A. Smith were married January 17 at the home of the bride's parents in Logan, Utah.

Gladys Jean Gordon and Lowell H. Markussen were married January 30 at the home of the bride's parents in Pueblo, Colorado.

Jessie Vincent and Andre B. Truden '41 were married December 20 in the First Baptist church in Marfa, Texas.

Rita Jones '43 and Karl E. Nash were married January 29 in the Salt Lake LDS temple.

Bonnie Buhler and A. Bonner Fitzgerald were married January 31 in Las Vegas, Nevada.

Shannon Harding and Robert Louis Anderson '46 were married recently in St. Mark's cathedral in Salt Lake City, Utah.

Fay Buchmiller and Russell Lee Kern were married February 14 in the Idaho Falls LDS temple.

Fawn Hirst and Don L. Peet were married February 14 in the Greta Wedding chapel at Las Vegas, Nevada.

Nola Agricola c'48 and Calder M. Pickett '44 were married March 20 at the home of the bride's parents in Ogden, Utah.

LaVora Bitton and L. Junior White were

married March 17 in the Salt Lake LDS temple.

Verdene Ellsworth and Lynn E. Page '43 were married March 12 in the Salt Lake LDS temple.

Raedene Hale and George Lee Lloyd were married recently in the Salt Lake LDS temple.

Cleo Woolf and Ray D. Daines were married January 23 in the Logan LDS temple.

Aifton Anderson and James A. Mann were married March 16 in the chapel at the Chapman Park Hotel in Los Angeles, California.

Shirley Ann Hickman and Don C. Hale were married March 20 in the Salt Lake LDS temple.

Emma Lucille Wooley and James Arthur Goss were married March 21 in the Salt Lake LDS temple.

Dorothy L. Grismore and Maj. John W. Rolly were married March 11 at the Chapman Park hotel chapel in Los Angeles, California.

Monica Jane Oliver and David Marshall Gaffin '41 were married March 21 at the Congregational church in Pocatello, Idaho.

Peggy Thorpe and Lex Baer were married March 20 in the Logan LDS temple.

Regina Urban and Joe Turner were married February 14 in the Logan LDS temple.

Dorothy Nelson and Rex V. Clawson were married March 26 in the Logan LDS temple.

Nellie June Farnsworth and Keith Boyd Hill were married recently in the Salt Lake LDS temple.

Florence Henderson and Grant F. White were married recently in the Fifth Ward chapel in Logan, Utah.

Elaine Leigh and Lynn O. Jensen were married March 31 in the Manti LDS temple.

Annual Music Camp To Be Held in June

The summer music camp which has been held at Utah State every summer since 1932, except during the war years, is being resumed on the campus this year, it was announced by Dr. N. W. Christiansen, professor of instrumental music. The event will be conducted for two weeks, June 16 to 27.

This year the program will be expanded to include chorus, band and orchestra. Nationally known educators who will take charge of various phases of the work are Professor Norval L. Church, associate professor of music education, Columbia University, New York City; Professor William Gould, director of the famous Trojan band, University of Southern California; and Professor Francis Barter, director of music at Spokane, Washington.

Students and directors will receive daily help from these noted directors, as well as from the resident faculty. High school students, to a limited number, may enroll in band, orchestra, and chorus.

Arrangements have been made to house out-of-town students in the USAC dormitory down town in Logan. Here they will receive two meals a day and lodging. The noon meal may be obtained on the campus at cost.

Ample facilities for recreation will also be made available to enrollees. The entire program will culminate in concerts specially prepared during the rehearsal periods. Music directors may earn up to three hours of college credit and high school seniors, one hour.

Whitesides, Bell, Win Positions

(Continued from Page 5)

men who have already served faithfully and capably within the institution."

The veteran Coach E. L. Romney stated, "I am happy that officials of the USAC have appointed Joe Whitesides to coach basketball. Joe has established himself as a very capable coach, and is well liked by students, faculty members and townspeople. He has had a great deal of experience coaching all branches of sports and fortunately, during the past couple of years, has centered a great deal of his attention on basketball coaching. As assistant to H. B. Lee, Joe did an outstanding job and Lee was loud in his praise of Joe's ability."

Coach Whitesides accompanied

Bebe Lee and the Aggie cagers on their eastern tour last winter, and has given particular study to the court competition since it was first known that Lee might leave USAC.

Of Coach Bell's appointment, Romney said, "he has been an outstanding student and athlete and I am pleased that Marv is joining the staff. He has had considerable experience and success coaching at the college and at Logan high, and has the enthusiastic support of all members of the coaching staff, the athletic council, and sport fans in Cache valley. Marvin is well qualified for this particular job, and I feel that his joining the staff will add strength to it. Besides assisting in coaching certain varsity teams, he will pay particular attention to the freshman program."

News of the Armed Forces

Captain Vaun T. Floyd '40, who received his medical degree at Columbia University, is now serving in the medical section of the headquarters, U.S. air forces in Europe.

Cpl. Spence A. Dewey of Logan is stationed with the 1949th engineers aviation utilities company of the 316th bombardment wing, now on occupation duty in Okinawa.

Lt. Bernice E. Hultquist '43 is the only dietitian at the 155th Station hospital in Yokohama, Japan. She plans to return home in July to be discharged.

Lt. Wynn E. Earl '44 received his doctor's degree from Washington University, St. Louis, Missouri, in June, 1946, and is stationed at the

Rosalie Wolf '45 Joins Pan American Airways

Rosalie Charlotte Wolf '45 has joined the Pacific-Alaska division of Pan American World Airways as a flight stewardess on the big trans-Pacific Clippers operating out of San Francisco, California.

Miss Wolf began her stewardess training course on Friday, September 13, which she maintains was her "lucky day". In describing her work, she says that it is vigorous but fun. Between flights she has sufficient time to pursue her hobbies of swimming, horseback riding, sewing and dancing.

Regional Station hospital, San Antonio, Texas.

SUMMER SCHOOL

At the

Utah State Agricultural College

Will Begin Wednesday, June 11

Two Sessions are Scheduled:

First Session June 11 — July 18

Second Session July 28 — August 30

Students may attend either or both sessions.

CURRICULUM

Major Attention Will Be Given to Graduate Work

and to Refresher Courses for Teachers

Begins June 11

Ends August 30

Write for a catalog and for additional information.

UTAH STATE AGRICULTURAL COLLEGE

Logan, Utah

BRINGING NEW IDEAS TO YOU...

from the Laboratories of General Electric

IN THEIR work in the General Electric Flight Test Laboratory, people like Girl-Engineer Marguerite Hartl, shown above, are bringing nearer the day when you will fly in planes powered with gas turbines. Once used only in fast jet-propelled fighters, G-E gas turbines like the Propjet will soon fly commercial airliners and perhaps your own sports plane...

Safer lighting of streets is a never-ending search in the company's Illuminating Engineering Laboratory. Lighting Specialist Hal Breeding studies the light pattern of a reflector on test...

The day may not be far off when snowclouds may be forced to drop their snow over ski slopes rather than over your city. Vincent J. Schaefer of

the G-E Research Laboratory can change real clouds as well as laboratory ones into snow...

These are three of the many hundreds of men and women who work in the 29 G-E laboratories to make new ideas serve you. Some, like Mr. Schaefer, seek fundamental truths for science. Others, like Mr. Breeding, work to *apply* these truths in the making of better products. Still others, like Mrs. Hartl, study and test G-E products, the materials that go into them and the machines by which they are made.

With the help of this large and well-equipped laboratory team, General Electric carries further its basic aims... to make jobs secure and profitable for its workers, to gain a fair return for its stockholders, and to make new and better products for the public.
